

A. J. MOREY, EDITOR.

ATTENTION CENTRAL COMMITTEE.

The Democratic Central Committee of Harrison county, will be pleased to meet at the office of Cleary & West, on Saturday next at 4 o'clock, P. M.

FOR SUPERINTENDENT OF PUBLIC INSTRUCTIONS.

We are pleased to announce that our excellent friend Rev. H. A. M. Henderson, has been induced to run for the position of Superintendent of Public Instructions, for Kentucky. We feel that he has some claims upon his friends in Harrison, and we hope that he may be considered worthy for the position, by the great Democratic party of Kentucky, for we know of none better qualified, and none with more energy to carry out the great humanitarian objects which our people and legislature had an eye upon when adopting the recent new school laws.

REGISTER OF THE LAND OFFICE.

We learn from the Carrollton Democrat, that Maj. R. Frank Harrison, is a candidate for this office. He is a true and tried Democrat, a gentleman in every sense of the word, and well qualified for the place. He has the confidence of his fellow-citizens of Carroll, who have conferred upon him the office of County Court Clerk, which he fills to the satisfaction of the people. We shall be pleased to vote for the Major, if nominated, and we shall be pleased to give our hearty support for the nomination.

DEMOCRATIC.

The following is the Democratic platform according to the Democracy of Clarion county, Pennsylvania: "We believe this to be a white man's government, formed by white men for the benefit of white men and their posterity forever; and so believing, we are opposed to the Fifteenth Amendment, which was conceived in iniquity, and adopted by force at the point of the bayonet, in opposition to the wishes of the people, and in violation of the constitution, not only of the State of Pennsylvania, but of the United States."

DEATH OF JNO. WARD.

We have been informed by friends that Jno. Ward, Esq. of Arkansas, was murdered at Hot Springs, near Little Rock, Ark., on Wednesday or Thursday last.

Jno. Ward was a native of this county; and a brother of Hon. H. Ward, of this city, and of Zeb Ward, Esq. of Woodford county. John Ward was about 60 years of age, and was as vigorous as half our young men. He was a man of great mind, and none had more firmness and courage.

We hope our correspondent at Hot Springs, will give us the particulars of this Assassination.

WITHDRAWN.

Messrs. Trabue and Marshall, both candidates for Congress in the Lexington District, have withdrawn from the track. They have just found out that there were too many candidates in the field. We feel like complimenting these gentlemen for their good sense.

Mr. Marshall, in one of his happy moods, recently while speaking to the people, and electioneering for Congress, in the Lexington District, said he did not know what he should do with his respected opponent, Mr. Trabue. Grant had bottled up Beast Butler, which was considered sufficient in that case; but for Trabue, he (Marshall), believed he would take a goose-quill, cut the feathered end off and stick him (Trabue), into the cavity left and file him away. Trabue has not been seen or heard of since. Mr. Marshall said A. G. Talbot was a candidate for Congress also. He already held a position as representative in the State Senate, and he filled his chair there half full, but if the people sent him to Congress, he would not be any nearer filling a seat in Washington, than a white bean would be to filling a bladder.

DEATH OF HON. JOSHUA F. BELL.

This gentleman, as we learn from the Danville Advocate, died at his residence in that city, on Wednesday, 17th inst. He had been stricken with Paralysis of the lower limbs some four months ago, and had so far recovered as to move about occasionally, but not sufficiently to give hope that he would ever be restored again. For a week prior to his death he commenced sinking, when he closed his career on Wednesday, as above stated. He was 59 years of age.

Mr. Bell was an eloquent speaker, and whenever and wherever he was announced to address the people, in Kentucky, he was certain to have hearers. He had few equals in the State; but as strong as he was on the stump he was never very successful. He was a man of firmness and principle.

A. J. MOREY, Esq.—Being in a dilemma, I feel anxious to submit my difficulties to your mature judgment. My father was a Frenchman—my mother was French, and I am a native of France. Now, my dear sir, can I properly interfere in the present Franco-Prussian war? My penchant is for France, particularly so as it was my good fortune, when a stripling, to have the honor of being seated in the Empress Josephine's lap. But, having taken the oath of allegiance to the United States of America, and to the State of Kentucky, and being in principle a Republican—not in a party sense, but as Republicanism was in the days of Washington? I want to know of you whether I could consistently accept of a high position in either of the belligerent armies, by putting off my republican coat as I did the Quaker, when driven to the ultimatum of a fight? And if your verdict is in favor of my taking part in the war, please express on which side. Your paper is extensively read in this country, and perhaps in Europe, and it may bring me to the remembrance of their Majesties, the Emperor of the French, and the King of Prussia. Your immediate decision of my dilemma is anxiously solicited, as an officer of Marshall, or at least of Major General, may be expected by the belligerents before your next issue. Your friend,

MARS.

Berryville, Ky.
Our friend "Mars" has brought us to a point where we have desired to speak out for several weeks past, and now that the war has progressed to its present status, and the punishment from the news received, indicates that both parties have suffered immensely, we feel that we can say what we feel without giving offense.

We sympathize with France, and the French people, for many reasons that we don't propose to enumerate here—but while that is true we condemn Napoleon for inaugurating a war without a cause. When the Prussian Prince withdrew from the canvass for the Throne of Spain, all cause for a war, even to a sensitive Frenchman, had disappeared, and the Emperor should have ceased preparing for it. But no, he was for war, right or wrong, and straight way sends his Turcos to the Prussian Frontier.

And why did he do so? Not because he wanted a war, but because the Prussians had suddenly loomed up into a first class power in Europe—and because King William and Prussia was standing up shoulder to shoulder with the Emperor, and La Belle France; and the Emperor was mad and jealous and determined long since to kick up a fight with the Prussians. And the Emperor has been unfortunate, up to this time, for himself, as he finds his Throne sinking beneath his feet, and unless the tide of battle should set in favorable to his cause, we believe that sixty days more will find him, either in Exile or Prison.

It is true that King William is aggressive in his policy. He goes for those infamous notions of consolidation and centralization, and desires to make Germany a unity, and especially so under his command, and all surrounding his Throne. His idea is to absorb, to snap up and devour all Europe. Hence it was that a Prussian Prince was proposed for the Throne of Spain, that Prussia might surround, as it were, the French Empire. But the Prussian Prince was withdrawn, and then it was that all cause for war was at an end. Napoleon, however, asked for guarantees against future propositions of the kind, and he was refused, and it is said insultingly so—but in this we can not see a cause for the great struggle into which he finds himself thro. Many may, and do contend that he was alarmed for the French Nationality. If so why was it, and why is it that his great men in the Assembly could not see any cause for alarm at the condition of affairs. We believe he made war for the purpose of destroying the republican opposition which has been raised against him by his own people, and nothing else and he will succeed.

What right had Napoleon, as Emperor of France, to jangle to his nearest passions, and precipitate France into a war, in which thousands upon thousands of his countrymen,

as well as thousands upon thousands of King William's subjects should be destroyed—their cities burned, and their substance eaten up?

None, except what he calls his "Divine Right."

We contend that all these "Divine Right" fellows should be lodged in some Lunatic Asylum, or put in some cage where they won't hurt other people—and when they want to fight, they should be turned out by themselves, that they may fight with themselves only.

Two thirds of the bloody and devastating wars of Europe, have been made to satisfy personal piques, of Male or Female Royalty.

The French people, in our opinion, have not entered into this strife with the Prussians, at the command of the Emperor Napoleon, with a willingness which in any particular indicated a hearty co-operation or enthusiasm. On the contrary, they have faced their enemies with a conscious feeling that they were in the wrong—and have only fought bravely when excited to revenge at the sight of the death of their comrades.

The French are a great nation, and considered among the most intelligent. They are brave and generous, and when united are invincible. But the simple and foolish whim of an old pampered dotard, whose mind has been warped and weakened by disease, until it is known only to a few individuals that he holds an existence in this squalid sphere, could not unite forty millions of people on an abstract idea, to sacrifice themselves, simply because he is jealous of the greatness and glory of some of his neighbors. And they should not be united in an unholy war of the kind.

We have no respect for King William, or any other Emperor, King, Prince or Potentate. They are all Tyrants and oppress the common people. Like other Tyrants, King William asserts that he holds his position by "Divine Right"—that God has placed him over the Prussian people, and that every knee should bend and every tongue in his realm confess and glorify him. Believing that to be a lie, we have no sympathy with any of their triumphs or defeats, but hope that out of all this strife and bloodshed, something may be gained for the people, for liberty and for humanity.

To our friend "Mars," then, we say, have nothing to do with Prussians while they fight to strengthen the Throne of the Tyrant, King William, although it may be the land of your father's nativity, for his subjects are only riveting the chains which must enslave them forever. And if you enlist under the Emperor's standard, you are fighting for him and the establishment of his Throne, not for France. He is a Tyrant, like King William, and in this war has shown less respect for the lives of his subjects, than the Prussian Tyrant. Never fight for Monarchs. They are tyrants and oppress the people. But should the people of France, the native land of yourself and mother, or the people of Prussia, the native land of your father, make a strike for freedom from their oppressors, then we say buckle on your armor and go and help them, for 'tis said that "resistance to Tyrants is obedience to God."

EUROPEAN WAR NEWS.

Our news from the seat of war in Europe this morning is not of a very startling character. Skirmishing has been going on almost continually, but no serious engagement has taken place since the great battle of the 18th. Reports concerning this battle, as also that of the 10th, are very conflicting. Both the French and Prussians claim a complete victory. Both agree, however, that the slaughter was terrific. By way of London we learn that the bombardment of Strasburg has been commenced. Gen. Trochu, commanding at Paris, has issued a proclamation to the people counseling them to remain firm, and intimating that the city will have to stand a siege. The Emperor and Prince Imperial made a narrow escape from capture. They are now at Chalons. Prince Napoleon, it is rumored, has gone to Italy on an important mission. The Prussians, at last accounts, occupied the road from Metz to Verdun, and a battle, decisive of the war is hourly expected.

LATER.—Since the above was put in type, a special dispatch to the New York Herald has been received, dated at Carlsruhe, 21st, stating that the Crown Prince has achieved another complete victory over the French in front of Chalons.

Private advices received in New York from Paris state that McMahon, with 131,000 veterans, has effected a junction with the left wing of Marshal

Bazaine's army. This movement of McMahon is said to have frustrated the plans of the Prussians, who are thereby placed in a very perilous position. The Prussians are reported to be surrounding Verdun, which is imperfectly defended. The camp at Chalons has been raised, and the troops there ordered to take positions along the line. It is thought that the Crown Prince intends to advance on Paris by the Valley of the Aube. Bazaine has been supplied with ammunition and food. A dispatch from Berlin says the Prussians occupy Metzere. The fortress of Toul was bombarded by the Prussians on the 10th, but was not seriously damaged. Prince Napoleon left Florence. His mission is to demand the mediation of Italy. The French Minister to England has been instructed to make demands of England for mediation. Queen Victoria's letter to the Empress Eugenie is published. The Queen regrets her inability to mediate. She intimates that it is an affair for the Cabinet, and the Cabinet thinks the time inopportune. Olivier is reported dangerously ill with brain fever.

General Moltke, it appears, is another of the men who have learned how to set a bribe upon their tongues. He seldom speaks to anybody, and never converses. He knows seven languages, but it is a superfluous accomplishment since he never uses one of them—a man, in fact, entirely after Mr. Carlyle's heart. Just before he started for the war, a great speculation in stocks met him and desiring to get a hint or two for future use, said: "Well, General! how are things getting on?" "Thank you, Sir," was the reply "my eye crops are getting on beautifully, but my potatoes are very backward." Things have been getting on better with the General since then.

The dispatches Wednesday morning are very contradictory, none of them seeming to establish the real position of the French or Prussian forces. Private dispatches received in New York state that there is great mourning in Berlin over the recent terrible losses. The corps of Gen. Steinmetz is said to have been nearly destroyed. The Prussians are said to desire to avoid a fight until they can fill up their shattered ranks, but Bazaine, having been joined by McMahon, will, it is said, force a battle within forty-eight hours. It is reported in London that Marshal Bazaine has forced a passage by the way of Autun and Langun, reaching Montmelieu. It is reported that the Crown Prince of Prussia has withdrawn from his advance on Paris and gone to the support of the Prussian armies west of Metz, the position of the latter being threatened with a formidable attack from Bazaine, now reinforced by McMahon. A heavy rain fell all Monday night, which must have impeded all military movements yesterday. In the Corps Legation on Monday Count Palikau announced the receipt of a dispatch, dated the 19th, giving reassuring news. The dispatch was from Bazaine, and was brought by a messenger. It is understood the message contained much important and favorable news, which has been kept from the public. The other journals of yesterday state that a dispatch has been received there from Bazaine, in which he declares his purpose to remain at Metz, without any further explanation. The dispatch admits that Bazaine's communications were at one time endangered, but asserts that they are now secure. A London dispatch says the general headquarters of the French on Sunday night were a few miles west of Rheims. German dispatches received in London yesterday report General Bazaine in Metz with all his communications cut off. A dispatch from Berlin says the German forces in France have been partially reorganized. They are said to number 520,000. A dispatch from Alexandria reports the capture by the French of the Prussian frigate Herther, carrying twenty-eight guns.

WINE BATH.

A good story is told of an American travelling in Paris. Having occasion to take a bath, his physician recommended a wine bath. In the employ of the establishment there was a colored man whom he had known in America, and of him he inquired how they could give a wine bath for 75 cents. "Why, massa," said the negro, "that wine has been in the bath-room for one week, and you is thirty-eight persons that bathed in it." "Well I suppose they throw it away when they are done with it?" "Oh, no master; they send it down stairs for the poor people, who bathe for 25 cents." "And then what do with it?" "Bottled up and sent it to America, where they sell it for French wine."—Kentucky People.

BUENA VISTA, KY., Aug. 20th, 1870.
MR. EDITOR:—The time is not far off when the honorable Magistrates of Harrison county, will meet for the purpose of electing a School Commissioner for the ensuing term of two years. It would be presumptuous in any one to attempt to advise them in the election of a suitable man for this responsible position. But I hazard a warning in expressing the hope that our present efficient and zealous Commissioner will be re-elected for the place, which, since

his appointment, he has filled with ability, and so far as I have learned, to the satisfaction of all.

The duties of the School Commissioner are important, and though inadequately remunerated, to be faithfully and efficiently discharged, require much time and labor. Among the most important of the many duties devolving upon him, is the one that compels him to visit, at least once in each year, all the schools in the county, investigate and direct the operations of the same, by council, advice and public addresses, excite and enlist an interest, examine the course of study pursued and the text books used, and in various ways, generally promote the cause of public instruction. No person can be considered qualified to discharge well these responsible duties, unless he is possessed of fair educational attainments, and has been associated in the interests and management of schools. A teacher of long and varied experience is required to discharge, with efficiency and success, this perhaps, the most important duty of the Commissioner's office. To select a unit person to this responsible position, is to select an injury almost equal to a calamity on the whole country.

The late more liberal endowment of our Common Schools has awakened the slumbering interests of the cause of popular education; and with a live and energetic Commissioner at the head of our schools, supported by the hearty co-operation of the people, our county need be second to none in the State in its educational advantages.

CARPET-BAGGERY AT AN END.

The New York Sun, quick to perceive the truth, asserts that the overwhelming defeat of Grant's administration in North Carolina, foreshadows the downfall of carpet-bag governments in all the Southern States. Says the Sun: The fruits of the carpet-bag reign of the last five years are what might have been expected. The world may be searched in vain for governments so immoral, so shamelessly corrupt, so hopelessly rotten, as those now prevailing in the South. Politically they may be changed; but this can not cure one of the sores of the evils already inflicted. These scamps have run the States they rule ruinously into debt. The Legislatures controlled by them have pledged the States to the discharge of pecuniary obligations of crushing weight, to the future redemption of an enormous amount of bonds, and to the imposition of onerous taxes through a series of years. This has been done in furtherance of all sorts of schemes, whereby the authors reap present wealth and anticipate larger gains in the immediate future. These burlaps have already seriously embarrassed all of these States, and will high bankrupt some of them; and to save them from ruin, the reign of the carpet-bag robbers must be speedily brought to an end. The Sun concludes: "These corrupt carpet-bag usurpations are the outlying supports of Gen. Grant's administration. They sustain him by their votes, and he sustains them by his bayonets. Their downfall will herald his overthrow."

STAYING SLOWLY.

Diseases that progress rapidly to a crisis are not the only ones to be dreaded. Canker or dry rot does not blast the tree as suddenly as a stroke of lightning, but nevertheless it results as certainly, and in the manner chronic debility, although it does not kill with the swiftness of yellow fever, is as sure to sap the springs of life eventually as any acute disease, if not checked by hygienic and medical aid. There is something impressively touching in the spectacle of premature decay, languor, pallor, emaciation, depression of spirits, and a distant, forced exertion, are its ordinary symptoms, and they should be promptly met by tonic treatment. The best invigorant and restorative that can be administered in a case of this kind is Hostetter's Stomach Bitters. The stimulating principle of the preparation rouses the dormant energies of the system, and the strengthening properties give a permanent and healthy impulse to the vital forces thus brought into play. The failing appetite is re-awakened, the process of digestion and assimilation are quickened, the quality of the blood is improved, the secretions become more natural, and every organ that contributes to the nourishment of the body undergoes salutary change. By these means the repair of the physical structure is effected and its health and vigor restored. In no class of diseases has the beneficent operation of the Bitters been more marked and striking than in those characterized by general debility and nervous prostration. Ladies affected with these ailments find in this wholesome food of all tonics and correctives the safest and surest means of relief. It is strong to restore and powerless to injure. Such is the uniform testimony of "clouds of witnesses."—August 4, 1870—Lmo.

PREPARE FOR THE CHOLERA.

With the "heated term" comes the danger of that frightful pestilence—Cholera and kindred diseases. With untold and indescribable misery has been visited upon thousands annually by these awful complaints. But every one ought to be made aware that a specific for this class of diseases as well as a certain preventive, is the celebrated MISLER'S BILET BITTERS. It will positively fortify the system against the attacks of Asiatic Cholera, Cholera Morbus, Cholera Infantum, Diarrhea, Summer Complaint, Dysentery, Colic, Painters' Colic, &c. D. H. Bissell, M. D., Physician, located at the U. S. Hospital Ship "Falcon," highly recommends it for Cholera, and has used it with marvellous success in such cases. It acts like an angel of mercy in every instance. Sold by all druggists and dealers. Price one dollar per bottle.

Wilkes and Ditzler.

These gentlemen have been holding a big meeting in Lexington, Missouri, where they have been discussing their religious differences. We have not heard which is the triumphant man in that section.

Returned Home.

We are pleased to announce to our readers that our respected fellow-citizen H. F. Cromwell and family, arrived in this county from Alabama last Saturday. We hope he may find it agreeable and profitable to take up his residence here again, for we have never had the pleasure of knowing any better or purer man in all the walks and ways of this life. He is welcome.

African Methodist Conference.

The Kentucky African Conference, which has recently met at Bowling Green, Ky., has appointed Rev. S. Straws, for Shelbyville, Ky., and Rev. W. Hill, from Georgetown, comes to this place. Mr. Hill is about 50 years of age. Mr. Straws has been preaching to his colored brethren in this place for the past three years, and his deportment as far as we can learn has been that of a good christian.

Town Talk.
A new and splendid Bible has been laid upon the desk of the Christian Church. Elder Case has not made known the name of the donor.

The Water Melon business is very brisk in Cynthiana. Last week Mr. Cooper sold a load of the largest ever offered in any market.

The Methodist Church building is progressing rapidly. The foundation is laid and the brick work half way up to the roof. This will be a pretty church.

The grass, we are pleased to see has been plucked up and torn away from the pavements around the Court-House. Good.

The Market-House question continues to excite our people. Let us have a market-House, and an inspector of Weights and Measures.

We understand that Mr. Box will locate in Leesburg, and carry on the Tin-Smith business.

Samuel Williams, has very much improved his house on Church St.

Dr. Beale, has employed Mr. Eckler, one of the most reliable mechanics in Cynthiana, who is now putting up for the Doctor an excellent addition to his home on Pleasant Street.

F. A. Eveleth will rent his house on Walnut Street.

Mr. A. Dill's Flouring Mill is turning out about the best and cheapest Flour in Cynthiana—and the Millford Mills, two miles below Cynthiana, the property of Cook & Ashbrook, is another establishment where excellent flour is made. Our excellent friend Mr. Wolford has control of the Millford Mills.

By the way, we must be excused for complimenting our friend J. A. Wolford, for the splendid manner in which he has improved his new home. He has certainly displayed great taste in this thing.

D. A. Given and family has gone to Put in Bay, Lake Erie, to improve their health, and R. C. Wherritt and family are at Crab Orchard for the same purpose.

Mr. Baker, our former City Marshal, is putting up an addition to his house.

Every person is asking what about Pleasant Street Bridge? That is just what we desire to know. Who is in for the bridge, and who is against it?

Messrs. January & Sullivan's Paint Shop has been removed to the corner of Bridge and Walnut Streets, where they are prepared to attend to all business promptly in their line.

Mr. Herr, the Blacksmith and Simon Smith, the Wagon and Carriage Maker on Walnut Street, are driving a lively trade. Go and see them.

Messrs. Baltzelle & Evans have burned about 20,000 brick this summer. They recently sold 100,000 to Mr. Martyn, for the Methodist Church, Mr. Humble, of Covington, is the Contractor.

Mr. J. J. Parish, has burned a large kiln of brick, and we understand that he is about to put a number of them in the house of Mr. J. H. Shawhan, which he is about to build this Fall. Mr. Jno. O. Day puts up the wood work.

Business in Cynthiana is beginning to look up, and we hope it may increase in volume. Our business men complain bitterly of the dullness of the season, but hope for better times. We can not conceive what it is that will interpose to keep down trade and lively times. Every Farmer in the county has raised a large crop, and a large surplus will leave the county, and a return in currency will be realized.

Jesse Basket, of Henderson, Kentucky, is in Cynthiana on a visit to his relative, Dr. Beale.

The Contractors on the Paddy's Run Turnpike are working on the Cynthiana end of it just now.

Mr. Flannagan, Prosecuting Attorney in Clark county, Ky., called to see us week before last. Mr. F. is a staunch Democrat.

Elder Thomas Arnold, is holding a protracted meeting at Indian Creek, in this county. We understand it will continue all this week.

H. C. Marge, and J. W. Moore, have been North on an excursion. They returned home last week.

Hon. Nicholas D. Coleman, of Louisiana, once a citizen of this county, is in Cynthiana, on business.

John D. Renaker, Esq., will accept the thanks of all hands in this office, for a bag full of peaches.

Capt. Atkins, is in Cynthiana. He looks well and says he wants to marry. If he don't it is his own fault.

A negro was caught in a man's garden at Roanoke, N. C., the other night, in close proximity to a lot of

fine cabbage. When interrogated as to what he was doing, he replied: 'Good Lord! dis nigger can't go no whar to pray without being troubled.' Mr. Partington says that since the invention of the needle gun there is no reason why women should fight as well as men.

Says the Boston Post: 'It is gratifying to one's sense of propriety to read that McMahon is no longer in communication with Nancy.' Her parents ought to have put a stop to the correspondence long ago.'

A Whipping well Deserved.

On or about the tenth of last month, a fiend in human shape, named Jesse Duncan, residing at the time about three miles from Connersville, on the Scott line, attempted to ruin his daughter, but was foiled. His neighbors took him out one night and whipped him for this act, from his head to his heels. He has since left the country, and the people are pleased that he has. His family remains where they were.

Police Court.

The following persons have been fined for violating city ordinances: Dr. Geo. Perrin, \$2 and cost. Simon Martin, \$2 and cost. Mrs. Strouse, \$5 and cost. Mrs. Yorkie, \$1 and cost. By order of Council.

A Church Burned.

The Methodist Episcopal Church South, situated on the waters of Harrison Creek, about 4 miles North of Obolville, in Harrison county, was entirely destroyed by fire on Tuesday night, August 16th. The Church was in an unfinished condition, but Divine Service had been held there, for several months past, and the pulpit was occupied by Rev. R. Lancaster. The burning is believed to have been the work of an incendiary, as no fire had been in or about the church for several weeks past. The loss is estimated at \$700.

Last Friday the members met near where the church stood and erected a stand, and we understand Rev. Lancaster commenced a protracted meeting last Saturday. As a matter of course the meeting is held in the woods. Measures have already been inaugurated to erect a new church house immediately. We hope that the second lot who set the church on fire may be caught and sent to the Penitentiary for the balance of his life. He deserves it. Last Sunday, Rev. R. Lancaster preached at the above place and he urged the people to subscribe to re-build the church, and \$1,019 was raised for that purpose.

Kentucky Fairs.

As the season for holding agricultural fairs approaches the interest in them increases and every body wants to know when they will be held. The following list, is the most complete an accurate that has yet been published:

North Kentucky, at Florence, August 30th, and continue five days. Shelby County, at Shelbyville, Tuesday, August 30th, and continue four days.

Mercer County, at Harrodsburg, Tuesday, September 6th, and continue four days.

Bourbon County, at Paris, Tuesday, September 6th, and continue four days.

Harrison County, at Cynthiana, Tuesday, September 13th, and continue four days.

Louisville and Jefferson County, near Louisville, September 13th and continue five days.

Fayette County at Lexington Tuesday, September 27th, and continue five days.

Nelson County, at Bardonia, Tuesday, September 27th, and continue five days.

State Fair, at Henderson, Tuesday, October 4th, and continue during the week.

"Our Father's House" or the Unwritten Word.

We have received a copy of this excellent work, and from its appearance and the high commendations it has received at the hands of both the secular and religious press, as well as from leading ministers of the Protestant Churches in the country, we do not hesitate to commend it to all lovers of the good, the true and the beautiful. The illustrations are very fine. They are all in steel in the highest style of the art, and are alone worth the price of the book. True Kentuckian, Paris.

The Agent will call on the citizens of this place with the work, the coming week.

After reading the numerous commendations from distinguished men, which accompany the prospectus of Dr. March's work, "Our Father's House," I feel free to recommend it to all who wish to be entertained, and instructed by those beautiful, and sublime things, which it is the object of the work to exhibit in an attractive dress.

Rev. HARVEY GLASS, Pastor Presbyterian Church.

The former work by Dr. March, "Night Scenes," enables me to commend any book emanating from his pen, particularly can I do so in this

case. After looking over the list of distinguished and very competent men, who recommend the literary excellence of this volume.

Respectfully, C. W. MILLER, Pastor M. E. Church, Cynthiana.

Electric Oil.
Mr. Euton—I would like through the News of this week, to correct a willful mistake. Yesterday at Trickum, I learned from a very reliable source, namely: William Clifford, that the citizens at and surrounding, had heard that I told somebody as I was going to Trickum to my July meeting, that I was going to preach to the heathens at that place. This I was told yesterday, has hurt the feelings of the citizens of that place. I immediately began to hunt out the reporter, and found that Mr. William Pixley, said or told that he got it from good authority in Cynthiana, that a man told him that he heard me say so. Mr. El. Hutchinson, Bro. Fred. Cason, and several others at Trickum, heard Mr. Pixley say that he got it from good authority in Cynthiana. Now, Mr. Editor, I am prepared to say that whoever Mr. Pixley's informant may be, whether in this town or elsewhere, that what Mr. Pixley says was told him is a black and dirty falsehood. I never told any one any such thing. I hold Mr. Pixley responsible for his good authority, and demand of him to tell me who told him, as he (Mr. Pixley) was the first to spread what he heard that I had said. The reason I pay my attention to this whatever, is because, the citizens at and surrounding Trickum, believe from what they have heard, that I did say what I have referred to above. It has been done by some undermining, mischief making, ill bred fellow, to run down my character, when I am altogether guiltless; and I wish a sudden stop put to the report. I denied the report yesterday at Trickum, in the pulpit, and told the citizens and congregation, that it had been done to retard my progress at that place, as a Minister. I have enough to do, to attend to my own business, and if people have any thing to say about me, I would request that they come to me, and talk face to face, and not report behind my back what I did not say, and what I pronounce as a lie.

Respectfully,

J. N. BARBER.

DR. SMITH'S "ELECTRIC OIL."

It cures Sick Headache in twenty minutes. Headaches, Salt Rheum, Rheumatism, Erysipelas, Piles, Gout, Neuralgia, Cancers, Felons, Burns, Cuts, &c. Twenty drops of the largest dose. No alcohol, Capsicum, Camphor or Water in it.

(From the Largest Drug House in Boston.)
We have sold a large quantity of Dr. SMITH'S "Electric Oil," which is spoken of with unqualified praise. God reports from every bottle. WEEKS & POTTER, Wholesale Druggists, 151 Washington St., Boston.

Thousands of dollars are lost in time by farmers and business men, when a few drops of the "Electric Oil" are used. It is a remedy for the sufferer, and the poor or ignorant. The rich can travel 1,000 miles and pay \$7,000 fees, cure or no cure. But when on earth, Christ invariably commended every good work; the act of the good Samaritan, and all useful and efficient labor for man's amelioration, and the devotedness of every waking hour to unselfish efforts—no time for malignant fault-finding and petty jealousy.

In that spirit should every one welcome a real benefactor, like Dr. SMITH'S "Electric Oil," of Philadelphia, a remedial so unlike any other known, as to attract the instant notice of medical men and all sufferers.

The great uses daily made are not mentioned, yet seen like enchantment. Considerable sums have been offered for the preparation, and some dealers sell as high as \$100 to \$200 bottles in a single day.

This "Electric Oil" is just what it purports to be. No deception—no misnomer—may be trusted on the spot. Dr. Smith frequently cures men and women. Doctors and Druggists, Ministers and Lawyers of deadly Sick Headache, within 20 minutes, in the Drug Stores, where color soon appears on the pallid cheek, the eyes begin to brighten up, and cheerfulness takes the place of abject misery.

It is true that Dr. Smith's oil is very largely used, even that by no means alone accounts for such rapid and continuous demand. The oil cures, which the people find out. STROGES & ARMSTRONG, of Cleveland, sold 133 bottles in one day. WEEK & POTTER, of Boston, sold 43 in a day. Geo. WELCH, of Akron, O., sold 40, and others in proportion.

(From the Largest Drug House West of St. Louis.)

St. Joseph, March 12.

Dr. SMITH'S "Electric Oil" is 30 dozen small and 30 dozen large size of your "Electric Oil." It has made a number of cures here and gives good satisfaction.

It cures and that is why it sells.

PROVIDENCE, May 10.

Dr. SMITH'S "Electric Oil" is entirely out of Dollar size of your "Electric Oil." Not a single bottle in the store. Send five cross large and ten cross small. We are having large sales.

Yours truly,

J. BALCH & SONS.

From the N. Y. Evening Post Republican.
THE RUIN OF RADICALS.
The Rich Made Richer and the Poor Poorer—What a Leading Republican Newspaper says of the Revival of Slavery in New England.

SHOULD NOT THE WORKING MAN TO BE "PROTECTED" ALSO?

Seven hundred Chinese laborers have been brought across the continent to Massachusetts, to take the place of white men in some of the shoe-shops—in that State.

Leather is "protected" against foreign competition; hides are "protected"; shoe thread, lasting and elastic fabrics are "protected"; oils and chemicals, all the materials used by the currier and tanner, are "protected." The morocco manufacturers are to be "protected" in the hill now before the Senate. All the machinery used in the manufacture of boots and shoes is made from "protected" iron and steel; the clothing manufacturers who supply the shoe makers are "protected"; the fish and potatoes they eat are "protected."

But the men and women who make the shoes are not "protected." On the contrary, they have been robbed for a term of years, and now they are to be kicked out and the Chinese put into their places. For while every kind of material or tool which has been used by the Massachusetts shoemaker has been made unreasonably dear to him by the tariff, in order that somebody else might enjoy the monopoly, the Chinaman, who is now imported to take the place of the Christian New England shoemaker, comes in free. The tariff does not touch him; it makes every material of industry dear; but it cheapens and pauperizes labor.

That is what is called "protection." Why are these Chinese brought to Massachusetts? Because they promise to work for less wages than New England men and women can afford to take. Why are wages lowered? Because the tariff, framed in the interest of the monopolists, makes all the materials of industry dear. The people of the United States now have fewer boots and shoes to wear, in proportion to their number, than they had ten years ago, and the export of boots and shoes has almost ceased.

Yet there is no branch of industry in which there have been greater improvements or a more complete substitution of machinery and handwork. A workman can now do at least twenty-five per cent. more work in a day, and of much better quality than he could ten years ago; yet he gets no greater comfort for his day's work, in fact, not as much as he did then.

We have this strange result coming from the improvement and invention; the people less well clothed, the workman more poorly paid, if wages be measured by what they will buy.

What do the high tariff monopolists care? Their pockets are full; their wealth is increasing; their sons and daughters live in luxury; their agents are in Congress crying out for a yet higher tariff and they have been cunning enough to persuade the President and the Republican majority in Congress that "the country is prosperous," because they, the monopolists, are getting fatter daily.

Was it for this that Congress guaranteed the bonds of the Pacific rail road, and gave it millions of acres of land—that the high tariff monopolists might, when they had starved and robbed the white workmen and women as long as they would bear it, bring in the pauper and heathen labor of China to fill the workshops from which Christian men and women have been driven?

WE ARE TO HAVE A CONGRESSIONAL ELECTION THIS FALL. Will any man say that the people should vote on any consideration for a candidate, no matter whether he is a Republican or Democrat, who would perpetrate this shameful and injurious system of high tariff protection which is driving Christian New England workmen and workwomen from the shops where they seek to earn their living and putting in their places pauper barbarians of China.

Make the material and tools used in the shoe manufacture free; strike them out of the tariff, where they produce no revenue that we cannot easily spare; and not only will wages rise at once, but the business, one of the largest and most important in New England, and one, too, which has never been protected, will revive at once, and the foreign trade which the tariff has lost us will be regained, while the operatives will receive proper wages. Let the Crispin societies combine with the shoe manufacturers in New England to demand this of Congress; and let them refuse, this fall, to support any one for Congress who will not pledge himself to insist, in Congress, on the immediate repeal of all duties which make the manufacture of shoes dear, and thus lower the wages of operatives. No man has a right to call himself a Republican, or to be supported by the Republicans who would perpetrate for a day this gross wrong to New England working men and women.

TO PHYSICIANS.

New York, August 15th, 1868.
Allow me to call your attention to my

Preparation of Compound
Extract Buchu.

The component parts are BUCHU
LONG LEAF, CUBEBS, JANI
PER BERRIES.

MODE OF PREPARATION.—Buchu, in vacuo
Juniper Berries, by distillation, to form a
tincture, Cubebs extracted by displacement
with spirits obtained from Juniper Berries;
very little sugar is used, and a small
proportion of spirit. It is more palatable
than any now in use.

Buchu, as prepared by Druggists, is of a
dark color. It is a plant that emits its fragrance
the action of a flame destroys this
active principle, leaving a dark and
glutinous residue. Mine is the color of
pale yellow. The Buchu in my preparation
predominates; the smallest quantity of
the other ingredients are added, to prevent
fermentation upon inspection. It will be
found not to give a Tincture, as made in Pharmacies, nor is it a Syrup—and therefore
can be used in cases where fever or inflammation
exists. In this, you have the knowledge
of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial,
and that upon inspection it will meet with
your approbation.
With a feeling of confidence,
I am, very respectfully,
H. T. HELMBOLD,

Helmbold's Fluid Extract Buchu
is the great specific for Universal Lassitude,
Prostration, &c.

The constitution, once affected with Organic
Weakness, requires the aid of Medicine
to strengthen and invigorate the system,
which HELMBOLD'S EXTRACT
BUCHU invariably does. If no treatment
is submitted to, Consumption or Insanity
ensues.

Helmbold's Fluid Extract of
Buchu,

in affection peculiar to Females, is unequalled
by any preparation, as in Chlorosis,
or Retention, Painfulness, or suppression
of Catamenia. Evacuators, Ulcerated or
Scurvy State of the Uterus, and all complaints
incident to the sex, or the decline
or change of life.

Helmbold's Fluid Extract Buchu
and Improved Rose Wash

Will radically exterminate from the system
diseases arising from habits of dissipation,
at little expense, little or no change in diet,
no inconvenience or exposure; completely
superceding those unpleasant and dangerous
remedies, Copalva and Mercury, in all these
diseases.

Use Helmbold's Fluid Extract
Buchu

In all diseases of these organs, whether existing
in male or female, from whatever
cause originating, and no matter of how
long standing. It is pleasant in taste and
odor, "immediate" in action, and more
strengthening than any of the preparations
of Bark or Iron.

Those suffering from broken-down or
debile constitutions, procure the remedy
at once.

The reader must be aware that, however
slight may be the attack of the above
disease, it is certain to affect the bodily health
and mental powers.

All the above diseases require the aid of a
Bilectic. HELMBOLD'S EXTRACT
BUCHU is the great Diuretic.

Sold by Druggists everywhere. Price—
\$1.25 per bottle, in 6 bottles for \$6.50. De-
livered to any address. Describe symptoms in

SIMMONS'
The symptoms of Liver com-
plaint are uneasiness and pain
in the side. Sometimes the
pain is in the shoulder, and
is mistaken for rheumatism. The stomach
is affected with loss of appetite and sick-
ness, bowels in general constive, sometimes
alternating with laxity. The head is troubled
with pain and dull, heavy sensation, con-
siderable loss of memory, accompanied with
a feeling of leaving left undone
something which ought to have been done.
Of an complaining of weakness, debility,
and low spirits. Sometimes, some of the
above symptoms attend the disease, and at
other times very few of them;
but the Liver is generally the
organ most involved. Cure the
Liver with
DR. SIMMONS'
Liver Regulator,
A preparation of roots and herbs, warranted
to be strictly vegetable, and can do no
harm to any one.
It has been used by hundreds, and known
for the last 35 years as one of the most re-
liable, efficacious and harmless prepara-
tions offered to the suffering. It cures
regularly and persistently. It is sure to
cure.
